There is some truth in it. The poor replaced by a less rigid union, the other wealth by ordinary business methods. is a failure, and that the divorce laws should be made less liberal. While the advocates of the prohibition of the sale of intoxicating liquors are endeavoring to prove that the great majority of the lils of the world are due to the liquor traffic, the National Divorc Reform Lague comes out with an interesting and well-digested report, in which it is sought to be demonstrated by the same of the chances for great success, to those who can strike out in new paths, can furnish success, to those who can strike out in new paths, can furnish something to the world that others cannot.

True merit, in commodity or ability, will win easily and with grand results in this country, if the masses can be induced to recognize it. This recognition can only be accomplished by what are sometimes specified as a divertish. port, in which it is sought to be demonstrated that "the most potent single cause of crime" is "bad homes and heredity."
The National Divorce Reform League certainly gives an interesting account of itself.

POOR PEOPLE'S CHANCES.

Some years ago a city missionary was crossing one of the parks in New York on the Sabbath day and said to a lad, "What are you doing here, breaking the Lord's day?
